

Emil Tamayo

PHP/Laravel Developer

+639260328847 / tamayo.emil@yahoo.com

Experienced PHP and Laravel Developer with a background in developing and maintaining backend APIs, integrating third-party APIs, and optimizing dashboards. Proficient in frameworks like Laravel, Code Igniter, and tools such as jQuery, Bootstrap, and MySQL. Skilled in creating and enhancing web systems, managing databases, and solving technical issues.

Versatile in both frontend and backend development, with experience in web design, server management, and API integration. Collaborative and detail-oriented, with a history of working in remote and team-based environments across diverse industries.

Work Experience

Laravel Developer

Freelance - Remote

August 2023 to Present

- Develop and maintain backend APIs for mobile and web applications
- Integrate third-party APIs for seamless system communication
- Create, enhance, and fix code in the Partner/BackOffice dashboards
- Develop new features using Laravel Nova for the backend office dashboard
