PROFESSIONAL SUMMARY

PHP/Laravel Developer with 8+ years of experience building web applications, REST APIs, SaaS platforms, CRM systems, and business management solutions. Experienced in Laravel, Laravel Nova, MySQL, API integrations, AWS deployment, Git, and Redis. Proven track record of delivering scalable solutions for startups, agencies, and enterprise clients in remote environments.

5+ years of experience working remotely with international teams across the US, Australia, and Asia.

CORE TECHNOLOGIES

PHP 8	Laravel	Laravel Nova
MySQL	REST APIs	JavaScript
jQuery	Vue.js	Next.js / TypeScript
HTML5 / CSS3	Bootstrap	Git / GitLab
AWS	Redis	CodeIgniter
WordPress	MSSQL	

WORK EXPERIENCE

Freelance — PHP/Laravel Developer (Remote)

Dec 2016 — Present · Self-employed

- Developed and maintained REST APIs serving mobile and web applications used by thousands of end users.
- Built SaaS dashboards, partner/back-office systems, and admin panels using Laravel and Laravel Nova.
- Integrated third-party APIs (payments, SMS, CRM, and fulfillment platforms) for seamless system communication.
- Improved API response times and optimized database queries for better application performance.
- Deployed and managed applications on AWS and Linux servers; managed 50+ API endpoints across client projects.
- Collaborated with cross-functional remote teams to deliver features on schedule and resolve production issues.

Fullstack PHP/Laravel Developer — IntraCode IT Solutions (Remote)

Jan 2021 — Jan 2024

- Delivered full-stack Laravel applications with custom REST APIs, admin dashboards, and MySQL-backed workflows.
- Integrated external services and maintained production systems for agency and enterprise clients.

PHP Developer — Fulfillment Ninjas / Afluent Consulting / 2KZ Consulting (Remote)

Nov 2022 — May 2023

- Built and maintained e-commerce and fulfillment systems using PHP, JavaScript, and Bootstrap.
- Integrated Konnektive/Sticky and other third-party APIs; fixed bugs and shipped features in active sprints.

Technologies: PHP, JavaScript, jQuery, Ajax, HTML, CSS, Bootstrap, GitHub, API Integration

Mid-Level PHP Software Developer — RightValley Corp. (Remote)

Jul 2022 — Oct 2022

- Developed and updated business systems using CodeIgniter and Microsoft SQL Server.
- Designed database schemas, participated in weekly scrums, and resolved production bugs.

Technologies: PHP, CodeIgniter, MSSQL, jQuery, Ajax, Bootstrap, GitLab

Outsource PHP Developer — Gleent Incorporated (Remote)

Nov 2021 — Jun 2022

- Supported Laravel and PHP codebases for client projects; implemented features and API integrations.

Design Engineer II — Tsukiden Global Solutions Inc. (Remote)

Jul 2021 — Apr 2022

- Collaborated with QA and project managers to enhance systems, migrate designs, and add new features.
- Worked across Laravel, Java Spring, and Python stacks with GitLab and Jenkins CI workflows.

Web Developer — The Inspection Company Ltd. (Cabanatuan)

Jun 2019 — Jul 2021

- Maintained internal Laravel systems, managed Linux servers, backups, and technical support.
- Added reporting features with ChartJS and improved system reliability for daily operations.

Technologies: Laravel, MySQL, GitHub, Bootstrap, jQuery, ChartJS

IT Assistant Programmer — Kasapi Microfinance and Rural Development (Talavera)

Feb 2018 — Dec 2018

- Built and updated websites from scratch; managed servers and provided hardware/software support.

Web Designer — The Inspection Company (Cabanatuan)

Jun 2017 — Feb 2018

- Developed WordPress and custom PHP websites; maintained backups and server operations.

SELECTED PROJECTS

EG EMR / EHR System

emr.emiltamayo.com

- Developed electronic medical records platform with patient management and online appointment booking.
- Built QR-based appointment confirmation, public lookup, and secure role-based access (Admin, Doctor, Nurse, Patient).

Barangay Information System (BIS)

bis.emiltamayo.com

- Built LGU management platform with Laravel API and Next.js frontend for residents, documents, blotter, and inventory.
- Implemented PDF generation, QR verification, multi-role RBAC, and English/Tagalog support.

Enpap4.0 Inc.

enpap4.com

- Built a scalable web application from the ground up with front-end and back-end development.
- Handled database design, API integration, and deployment of a production-ready platform.
